WASHINGTON LETTER.

From our regular correspondent. Washington, D. C., Oct., 25, 1895 Ex-United States Senator Charles II. Yan Wyek died vesterday at 4:30 P. M. at the Portland Flats in this City. Mr. Van Wyck was elected United States Senator from Nebraska in 1881 and heid his seat until 1887, when he was succeeded by Seaster Paddock. His career has been an honorable one, and has long been a prominent figure to political circles.

The President and the members of his Cabinet arrived home last night from Atlanta where they have been to attend the Exposition. They have been wined and dired and the greatest enthusiasm has been displayed during this trip on the part of the people in the South

" During the last few days a rumor has been affoat to the effect that Secretary Olpey was to resign from the Cabinet as there had been some differences between the Secretary of State and the President. The report seemed to have resulted from some unknown source as it has been denied by the officials who are in a position to know, and thus the matter rests.

of our cadets as our Naval Officers are to be excluded from the Royal School of Naval Architecture at Greenwich which during the past twelve years has been open to them. There are several reasons assigned for the exclusion, but the most prominent of which is that Great Britain believes that the United States has advanced so far in the coastruction of war ships that there is no courtesy extended our young construct- Bids received byors, when they receive equally good training at home.

Attorney General Harmon made his first argument before the Supreme Court of the United States on Wednesday last when he opened the discussion of the case of the U. S. vs. the State of Texas, brought to determine the question of the ownership of 1.511,576 acres of land, known as Greer county, Texas, and claimed by both parties.

The latest social sensation here is that Mr. James Van Alan, the clubman and unillionaire, whom Mr. Cleveland at one time named as Ambassador to Italy, is now named by Col. Samuel P. Colt, it is alleged, as co-respondent in a suit for divorce against his wife. Providence. R. I. and Newport society has been shakes to its foundation when the mat ter leaked out.

There are two states where the Gu bernatorial campaign is becoming ex citing, i. e. Maryland and Ohio. The Republicans in Ohio are on the defensive. Candidate Campbell is confining the discussion strictly to State issues and is making it exceedingly interesting for his opponent. While on the other hand, Senator Gorman, in Maryland, is assuming the initiative and is consequently making it very exciting for the Republican candidate for Governor

# Fast Trains.

On Tuesday, Oct. 29th, the Santa Fe Route will inaugurate a fast limited train service between Chicago and San Francisco. These trains will be vestibuled throughout and will have the finest equipment used on any road between Chicago and the Pacific Coast consisting of one baggage car, one chair ear, one dining car and two Pullman eleepers. The schedule time is forty eight miles per hour, making the run from Chicago to San Francisco in the remarkably short time of seventy-two hours. No form of free transportation, elergy tickets excepting, to and from Pacific coast points, second class rickets ner soy tickets covered by special per mits will be accepted for transportation It is the desire of the management to run these trains to accomodate and increase our first class California travel. For further information call on the local agent or address Gee. T. Nicolson, G. P. & T. A., Chicago, Ill.

Late Literary News. Rudyand Kipling makes his last appearance as a teller of Jungle Stories in The Cosmopolitan for October. "Mowgli Leaves the Jungle Porever," and the curtain is drawn over one of the most charming conceits in literature. In the same number in which Mowgli makes his final adieux, appears for the first time before an American audience, the now famed Richard Le Gallienne in a plea for religion under the title of "The Greatness of Man." A very important paper on "State Universities" is contributed to this number by Professor Ely. And among the story-tellers are Hopkinson Smith and Boyesen. No more beautiful work has ever appeared in any magazine than the marvelous illustrations of Crbrinety used as a frontispiece and accompanying the prose poem by Mrs. Cardozo. Drake-who is said to be Kipling's favorite artist for his Jungle Stories-Carter Beard, Osterlind, Denman, and Kemble, are among those who contribute a wealth of illustration to this number. The Cosmopolitan announces that it will begin the publication in January of The Agriculturist's Diustrated Magazine, to be fully the equal of The Cosmopolitan, but containing from sixteen to twenty pages by

The Human Electrical Forces!

How They Control the Organs of the Body. The electrical force of the human body, as

the serve fluid may be termed, is an expecially attractive department of science, as is exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The nneumognatric nerve as

sure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by Irritability ser exhaustion, the nerve lorce which it supplies

force which it supplies is lessened, and the or-

s lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fall to recognize,
the importance of this fact, but treat the
organ itself instead of the cause of the trouble.
The noted specialist, Franklin Miles, M. D.,
Ll. B., ans given the greater part of his life
to the study of this subject, and the principal
discoveries concerning it are due to his effects.

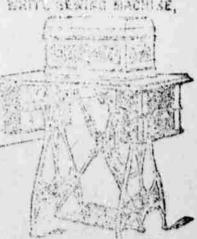

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared to the
principle that all nervous and many other
difficulties originate from disorders of the
nerve centers. Its wonderful success in curing
these disorders is testified to by thousands in
every part of the land.

Restorative Nervine cures sleeplessness,
nervous prostration, dizziness, hysteria, sexund debility, St. Vitus dance, epilepsy, etc. It
is free from opiates or dangerous drugs. It
is sold on a positive guarantee by all druggists, or sent direct by the Dr. Milos Medical
Co., Eikhart, Ind., on receipt of price, a posbottle, six bottles for \$5, express prepaid.
